

SERVICE LEARNING

Service Learning is a career exploration activity in which the method of teaching and learning combines academic work with service and social action. Students complete a planned series of activities and apply their skills and knowledge to help meet a need in the school or greater community. Service learning projects may be individual, team or classroom oriented.

Service learning experiences are designed to promote:

- Building academic and workplace skills;
- Exposure to careers and jobs;
- Building occupational knowledge; and
- Awareness of civic responsibility.

Success Factors

- Allow students to design and select the service learning activity.
- Provide classroom preparation for service learning.
- Have students conduct preparatory research and report on the community need.
- Provide opportunities for students to reflect on their learning and contribution to the community.

Key Legal, Safety & Health Issues

- Under both state and federal wage and hour laws, students cannot be required to complete unpaid service learning, community service or volunteer activities. (*Fair Labor Standards Act Section 3 (e)(4)(A)(i)*)

REMEMBER... *All Work-Based Learning Experiences Should:*

- Be developmentally appropriate;
- Include an orientation for all parties;
- Identify learning objectives;
- Explore all aspects of the industry;
- Develop the SCANS¹ competencies;
- Assess student performance;
- Provide opportunities for reflection;
- Link to the student's next step;
- Be documented and recorded; and
- Comply with state and federal labor laws.

¹SCANS is an acronym for the Secretary's Commission on Achieving Necessary Skills, which created *The SCANS Report for America 2000*, issued by the US Department of Labor, April 1992. The report defines a set of skills and competencies necessary for success in the workplace.
