

YCI SELF-ASSESSMENT: FUNCTIONS OF A YOUTH COUNCIL IN BUILDING THE SYSTEM

The California Youth Council Institute (YCi) was established July 2001 by the California Workforce Investment Board (CalWIB) to provide technical assistance to California's 50 Youth Councils. The primary customers of YCi are the staff and members of Local Youth Councils, along with the youth practitioners of a community. YCi was launched in response to needs identified by leadership, staff and practitioners at the state and local level seeking to implement the broad vision set forth in the Workforce Investment Act – to serve as architects of and catalysts for broad-based, local youth-serving systems. YCi is managed and delivered by New Ways to Work and the California Workforce Association.

This self-assessment is part of an integrated set of tools designed to help your Youth Council determine progress, document success, prioritize activities and plan for improvements as you implement your vision of “All Youth – One System.” Team leaders or facilitators using this tool should review the *YCi Guidebook* prior to completing the self-assessment. *The YCi Guidebook* (available for downloading at <http://www.nww.org/yqi>) provides detailed instructions on how to use this tool as well as other frameworks, assessments and workplans.

Your Youth Council or planning team should review the *Functions of a Youth Council in Building the System* framework prior to conducting this assessment. The left hand column in this assessment lists indicators or goals that are drawn from the *Functions* framework. Your team will identify their progress in meeting these goals. Then they will prioritize areas of focus for inclusion in the *Functions* workplan.
